PROJECTS

- **Hotel Website**
Created using HTML, CSS, Bootstrap5 and JavaScript.
This website allows people to check room availability, price, services and booking.
- **Portfolio**
Created using HTML, CSS and JavaScript.
- **Hospital Website**
Created using HTML, CSS, Bootstrap5 and JavaScript.
The main goal of creating a hospital website is to connect people to healthcare facilities and professionals. This website can provide information about hospital and its services.
- **Clone Website**
Created using HTML, CSS, JavaScript and PHP.
- **Foot cap Website**
Created using HTML, CSS and JavaScript.
This website can help companies expand their business and generate brand awareness. They can also offer a wider selection of shoes.
- **Dream Escape Traveling Website**
Created using HTML, CSS, JavaScript and PHP.
This website can be used to book travel plans, compare trip fares, and provide information on destinations. This can also be used to share important information with customers.
